

T1 Edge

T2 Edge

Clam pull is standard

Characteristics

- Arcos Series was designed by Wayne Morgan with the concept of using a piece structure to create a flexible solution.
- Bridges have no modesty panel.
- The swing of a hinged door cannot be changed once specified.
- Edge detail on all four sides.

Construction

- Top over pedestal construction.
- Finished reveal at the base of end panels and pedestals.
- Top is 1 1/2" thick with 3/8" wide edge band.
- All returns and credenzas are 24" in depth.
- All bookcases and hutches are 14" in depth. Adding doors increases depth to 15".
- All pedestals are standard with locks, except hinged doors. See accessories page # 11 for hinged door locks.
- Full extension drawer slides.
- Clam pull standard on all pedestals and hinged door cabinets.
- One grommet 2 1/2" in each work surface is included in price, if grommet is requested.
- No edge detail on hutches.
- Hutches are built in 3/4" end panel construction.
- Bookcases have edge detail on 29" high only.
- All bookcase shelves are 1 1/4" thick construction with 3/4" end panels.
