When selecting Woodtech as a supplier, your client will be receiving added value in addition to a high quality product, good price point, and on-time delivery. The added value of a Woodtech install is:

- Experienced factory team fully accessible to include field visits during specification.
- Field site verification by Woodtech.
- Problem solving with engineering team.
- Stage product for installation to include factory storage for delays.
- Woodtech provides installation services to include site touch-up and modification during install or once install is complete. *(Available in Northern California only)*
- Woodtech provides on-going installation service post-install with daily availability.
