

## ARCHITECTURAL WALL – LOBBY

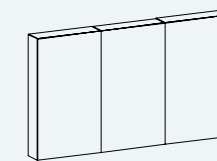

Woodtech's architectural wall designed by Wayne Morgan integrates different room sizes and shapes. A variety of veneer treatments, inserts and inlays to create a mill work appearance with furniture flexibility.

Woodtech high level of craftsmanship is achieved through the selection of premium veneers and personally hand-picked hardwoods. Our engineering department will provide CAD drawings for custom pieces and an experienced workforce will, step-by-step, hand make your architectural wall.

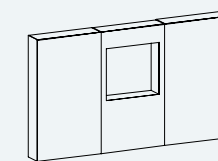

Finally, our thirteen step finish will ensure a beautiful and lasting product with a mill work signature.

typical configuration with optional credenza and doors for plasma screen

three full sections

two full sections and one section with opening

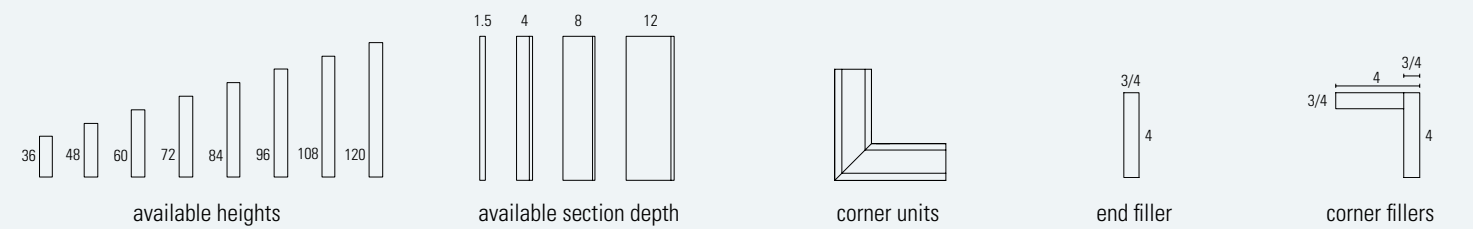

optional shelf

### ARCHITECTURAL WALL – CONFERENCE ROOM

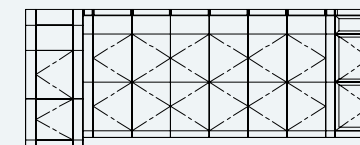

Architectural wall frames conference area with matching cherry sequenced panels, wall hung credenza with absolute black granite top. Options show plasma screen inset, conference and occasional tables featuring brushed aluminum inlays and custom reverse diamond pattern on tops.

ARCHITECTURAL WALL CONFERENCE

With horizontal and vertical reveals, audio tower (*lefthand page*), monitor doors center, brushed aluminum metal doors with frosted glass and down lighting (*rightand page*). Rich sequence matched walnut veneer, natural finish compliment two-tone boat shape conference table.

Typical configuration with 6 full sections – each with hinged doors. AV Cabinet at left end and display cabinet with brushed aluminum frame doors at right end.

ARCHITECTURAL WALLS

ARCHITECTURAL WALL OFFICE – Architectural wall creates a vertical credenza unit with traditional detail, black stone credenza top, frosted glass wood frame doors and storage tower. Bow front black leather inset desk top with remote monitor lift, all plain slice walnut veneer, natural walnut finish. The small detail on the right shows the optional monitor lift in the up position of the desk.
